

Glenn Welch
Prestige Mechanical Ltd.

Dear Glenn,

This year, George Brown College commissioned a total of thirty-five renovation projects at the St. James, Casa Loma and Nightingale Campuses. We built new student auditoria and labs, expanded existing service areas, renovated washrooms, created new staff offices, replaced a full roof, painted the interior and exterior of buildings, upgraded some of our main mechanical systems and signage.

Not only were 95% of the above projects completed before school start and within a tight schedule, but also to good quality and within budget constraints. The College wishes to acknowledge your valuable contribution and professionalism, as it continues to upgrade its facilities on an annual basis.

We hope to contact you during the next few months when new projects are planned for the summer 2000.

Once again, thank you for a job well done.

Yours truly,

Bashar Amer
